Arch Punches		
This punch should be used on a wood or plastic cutting block or the #603 Cutting pad. The use of wood or rawhide mallet is recommended. Steel hammers are not recommended. Osborne arch punches are drop forged in one piece from the finest special carbon steel in sizes from 3/16-inch diameter. Larger sizes are made with properly engineered two-piece welded construction. A unique feature of the Osborne arch punch is the inside taper which permits the punchings to clear easily through the barrel. Punches have a fully polished barrel and black enamel handle. The cutting edge is fully hardened all the way through and properly finished to provide long use and trouble-free punching. There is no other hollow punch that can compare. These arch punches meet government standards.

Auto Carpet Binding

Our mid-priced binding is designed for durability to give your product a finished look. This binding is 6-gauge vinyl laminated to poly-cotton Osnaburg, Bison grain. Our #300 line electronically-seamed bias binding is flexible so it sews around sharp corners easily without puckering to give your product a neat appearance. The 1-1/4-inch one-edge-turned binding may be purchased in a variety of colors. Suggested applications: Automotive: Cars, trucks, and vans for carpets, floor mats, door panels, and dashboard covers. Cases: Musical instruments, optical equipment, scientific instrument tool cases, photographic equipment, gun cases, calculator covers, tripod covers, battery covers, computer pouches, audio and video cases. Bags: Sports bags, pocketbooks, golf bags, luggage, school bags, backpacks, promotional and specialty bags. Sports and Travel: Air travel bags, garment bags, ski bags, sailing and camping equipment, and golf carts. Product and Specialty: Insulated cases for binoculars, cutlery, drummers, games, bank security bags, mail pouches, electronic cases, firearm bags, and menu covers. (15 Colors available)

Citadel

Citadel is a Marquesa lane, solution-dyed 54 inch fabric that meets the 400 hours colorfast-to-light test, the 250,000 double rub, Abrasion test and the CALL 7 fire test. We suggest only using only nylon or polyester thread when sewing, and fabric should be 1/2 - 3/4 to permit a cleandouble stretching with 7-8 stitches per inch. This fabric can be used for furniture or automotive upholstery and church pews.

Curve-Ease

Save time while trimming outside arms, wings, and backs by using our metal curve-ease or flex-grip to avoid hand sewing and produce a professional look. Available in seven versions (Curve-ease light, medium, heavy and Flex-grip medium with 2 or three teeth and Flex-grip heavy with 2 or three teeth) for various weights of fabrics. These attach easily and quickly with nails, tacks or staples. By cutting to desired length, you avoid waste and extra cost.

Marine Hidem Gimp

Use this 3/4-inch-wide product to hide the staples underneath your boat seats and other projects and provide a professional finish. Pull the welt apart, staple through the welt and material into the bottom of the seat, and your staples will be hidden from view! Full rolls are 25 yards. For full rolls, order items shown WITH an R suffix in the item number. (Order a quantity of 1 for 1 roll, 2 for 2 rolls, etc.) For yardage less than a full roll, order items shown WITHOUT an R suffix. (Order a quantity of 1 for 1 yard, 2 for 2 yards, etc.) The Seaquest hidem matches our Seaquest Marine Vinyl. We also have colors in the #300 style.
